Pennard Vets

beyond the ordinary

Prescriptions are available from this practice.

Pennard Vets ensure that medicines supplied are obtained from reputable sources and in accordance with legislation.

You may obtain Prescription Only Medicines, category V (POM V's) from your veterinary surgeon OR ask for a prescription to obtain these medicines from another veterinary surgeon or pharmacy. Your veterinary surgeon may prescribe POM V's only for animals under his or her care.

A prescription may not be appropriate if your animal is an in-patient or immediate treatment is necessary.

You will be informed, on request, of the price of any medicine that may be prescribed for your animal.

The general policy of this practice is to re-assess every 6 months any animal that requires repeat prescriptions, but this frequency may increase or decrease, depending on individual circumstances and the opinion of the veterinary surgeon. The standard charge for a re-examination for such purposes is £59.

There is a charge for providing prescriptions. Please ask a member of staff for the current prescription fee.
